1 Introduction

1.1 PRECONDITIONS

1. The user has access to:

- to the Internet.
- Chrome Web Browser (version: 114.0.5735.198).

2. The user has a user account on the website: <http://falscify.pl> with correct login details.

1.2 SEVERITY

S1. Critical/Blocking - The defect completely prevents further testing of functionality. As a rule, it affects key business processes and jeopardizes the delivery of functionality.

S2. Very high - The defect affects key business processes and threatens delivery functionality, however, it is possible to circumvent it by using a path alternative.

S3. High - The defect affects one or more application components. It also makes it impossible testing it, however, it is possible to circumvent it by using alternative path.

S4. Medium - Defect does not affect key processes, further testing is possible and in case of a problem, also a workaround using an alternate path.

S5. Low/Trivial - Defect with minimal impact on the system under test.

1.3 PRIORITY

- P1. Critical/Blocker - Blocks the application's business process and should be executed first.
- P2. High - The defect is significant and needs to be monitored and mitigation action taken possible occurrence in the future.
- P3. Medium - To be fixed as soon as possible.
- P4. Low - The defect can be addressed when there are no tasks in the iteration.

2 BUGS

2.1 BUGID:01

'In the search bar, after hovering over the search hint, a white bar is displayed'

Severity/Priority: S4/P3

PRECONDITIONS:

Opened page <http://falscify.pl/home>

STEPS:

1. Open page <http://falscify.pl/home>
2. Click on the search bar
3. Click the left mouse button
4. Hover over the proposed text

CURRENT RESULT:

1. A white bar is displayed

EXPECTED RESULT:

1. Search bar doesn't change

ATTACHMENT:

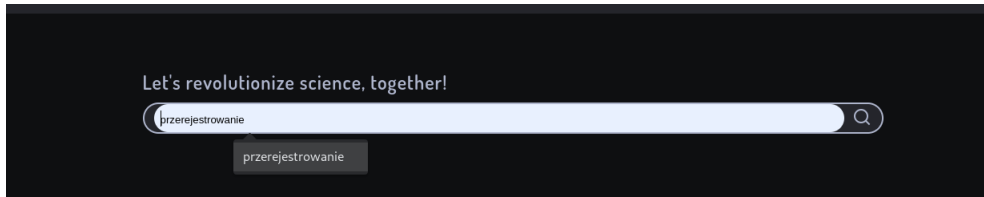

Figure 1: White bar in dark mode

Figure 2: White bar in light mode

2.2 BUGID:02

”Sign in’ and ’Sign up’ buttons look wrong’

Severity/Priority: S5/P4

PRECONDITIONS:

Opened page <http://falscify.pl/home>

STEPS:

1. Open page <http://falscify.pl/home>

CURRENT RESULT:

1. ’sign’ is on the first line up is ’up” the second line
2. ’sign’ is on the first line up is ’in” the second line

EXPECTED RESULT:

1. ’Sign in’ is within 1 line
2. ’Sign up’ is within 1 line

ATTACHMENT:
